*A passionate developer with a keen interest in learning and solving complex problems with simple and effective solutions. I am currently working as a Salesforce Developer at Wipro. I'm also pursuing my master's with Scaler(Woolf University) on Software Development.*

## SKILLS & ABILITIES

**Proficient:** Python, Salesforce

**Familiar:** Cisco Networking, Network Automation(Python, NETCONF/YANG), Linux Shell Scripting, AWS

## EXPERIENCE

### Project Engineer, Wipro Limited

July 2021 – Present

- I worked on minor enhancements for a webpage created with salesforce and handled defects and incidents.
- Working on automating the process of handling a few incidents
- Salesforce Platform Developer 1 Certified
- Trained in Java, Salesforce, DevOps and DevSecOps

### Network Automation Intern, L&T Smart World

Jan 2021 – June 2021

- Built a system that automates the initial configuration of any new network element in the network, maps the entire network and also continuously monitors the network to report to the admin the root cause of an issue when there is a number of devices down in the network.
- Learnt about Cybersecurity and Web development with Django
- Learnt about the use of NETCONF, YANG, Python and other tools for network automation

### Content Manager/Python Developer, BeyondX Tech Ltd.

June 2020 – March 2021

- Designed and led the development of a tool with GUI for 2-level encryption/decryption of text with Image Steganography and Encryption Algorithms (AES, Blowfish).
- Managed their Social Media platforms.
- Created content on Networking, Cybersecurity, Linux and others.

## EDUCATION

- **Scaler Academy**(Present) | M.S (CSE - Software Development)
- **Vellore Institute of Technology, Chennai**(2021) | B.Tech (ECE) | CGPA: 8.18
- **Swamy's Mat. Hr. Sec. School, Chennai** (2015-2017) | 12<sup>th</sup> | 88.5%
- **Swamy's Mat. Hr. Sec. School, Chennai** (2015) | 10<sup>th</sup> | 93.4%

## ACCOMPLISHMENTS AND INTERESTS
